Gerald,
Nice seeing you today, thank you for attending the meeting. I think it went well, the Councilmember and the Owner Eri seem to speak the same language, and that gets us off to a great start.

I want to follow-up on the conversation Fernando said he had with you regarding learning about other recent/ongoing projects, and how they interact with the community.

Can we meet over breakfast or lunch soon?

Thanks again for attending the meeting today.

Lali

Good morning, Gerald.
Me and my client Sandstone have a meeting with you and the councilmember today at 1:30. Just confirming you will attend the meeting. Also can I call you this morning just to touch base before the meeting? If so, what's a good time and what is your cell number?

Thank you for your time,
